

THE NATIONAL HOMEOWNERS ADVOCATE GROUP, LLC and THE TEXAS HOMEOWNER'S ADVOCATE GROUP

Join Us

Harvella Jones - President, The National Homeowners Advocate Group, LLC
Published 10/06/2008 - 4:11 p.m. CST

The National Homeowners Advocate Group started in Texas and is moving across the country encouraging homeowners and individuals interested in their property and Constitutional rights to join our organization. (Free group shirt, writing subscription to Write Your Own Stories Newspaper with one classified ad included in membership at <http://www.writeyourownstories.com>.)

There is a \$20 *one-time* membership fee. We can email each other across the country and build up a coalition that will be noticed, respected and powerful enough to get legislative action to pass the bills, statutes and laws that we want passed. We have real problems, real issues to address such as unconstitutional homeowner association foreclosures and threat of foreclosures, eminent domain issues and each year quasi-government types and Community Association Institute (CAI) attorneys are figuring out new ways to grab our land from under us.

Homeowner Association communities need oversight and regulation. You can see what has just happened with our economy and why it is so important to have industries regulated when money and property is at stake.

We are called The National HAGs (for The National Homeowners Advocate Group). We need you! Join us so together we can permanently stop ALL homeowner association foreclosures among other things. Tell others about our work on behalf of homeowners everywhere.
